COMMENTS OF PINE TREE TELEPHONE LLC

Pine Tree Telephone, LLC (“Pine Tree”), an Otelco Inc. subsidiary, hereby submits these comments regarding the Federal Communications Commission’s (“FCC” or “Commission”) July 29, 2015 Public Notice which published the Wireline Competition Bureau’s (“Bureau”) Preliminary Determination of Rate-of-Return Study Areas 100 Percent Overlapped by Unsubsidized Competitors dated July 29, 2015 (“Notice”).¹

I. BACKGROUND

Pine Tree is a rate-of-return rural incumbent local exchange carrier which operates in the Gray/New Gloucester area of southern Maine. The Bureau alleges that, based upon data collected from the FCC’s Form 477 and the 2010 Census, Time Warner Cable (“TWC” or “Time Warner”) and/or Comcast offer fixed voice and fixed broadband (at speeds of at least 10/1 Mbps) to 100% of the homes and businesses within Pine Tree’s study area (SAC 10020).² The Bureau acknowledged, however, that for purposes of determination of competitor penetration, the Bureau assumed that a competitor served 100% of the homes or businesses with a census block,

¹ See Wireline Competition Bureau Publishes Preliminary Determination of Rate-of-Return Study Areas 100 Percent Overlapped by Unsubsidized Competitors, WC Docket No. 10-90, Public Notice (rel. July 29, 2015) (“Public Notice”).

² See Notice at ¶ 5, 100% Overlap Map at <https://www.fcc.gov/maps/100pct-overlap-map>.

even if the competitor actually served only one or two locations.³ If the Bureau's Preliminary Determination is affirmed, Pine Tree likely will have its high-cost universal service support phased out as a result of the 100 Percent Overlap Rule.⁴

In the Notice, the Bureau states that rate-of-return carriers are "free to submit evidence that an unsubsidized competitor does not offer service to all locations in the census blocks specified in the appendix and/or that the competitor is not offering service to all locations within those blocks."⁵ The FCC explains that relevant evidence would include searching competitors' online service availability tools and receiving a "no service available" result for a specific address. Accordingly, Pine Tree submits these Comments and the attached Affidavits and Exhibits to refute the Bureau's Preliminary Finding and, instead, support a finding that unsubsidized competitors do not serve 100% of Pine Tree's study area.

II. TWC AND COMCAST DO NOT SERVE 100% OF PINE TREE'S STUDY AREA

Upon receipt of the Bureau's notice in late July, Pine Tree began analyzing the map provided by the Bureau and reviewing the competitive status of those portions of its study area where, based upon the experience and knowledge of its employees, it believed no cable or fixed wireless competition existed. As the attached Affidavits of Scott Bartlett and James Taplin explain, Pine Tree visually inspected portions of Pine Tree's territory and found over 40 locations where Time Warner does not have the plant necessary to provide broadband service

³ Notice at ¶ 7.

⁴ See *Connect America Fund et al.*, WC Docket Nos. 10-90 et al., Report and Order et al., 29 FCC Rcd 7051 (2014); 47 C.F.R. § 54.319.

⁵ See Public Notice at ¶ 22.

meeting the Commission's standards in this context.⁶ (See Exhibits A and B, including the attachment to Exhibit A which contains the list of specific locations.). After identifying the specific locations, Pine Tree entered each address into Time Warner's online ordering tool for internet service and confirmed that Time Warner does not, in fact, serve those locations. (See Exhibit C contains the screen shots for each address not served by Time Warner.)

Pine Tree believes that if it were to inspect each and every location in its territory, additional locations not served by TWC (or Comcast) would be identified. However, given the short time allowed for investigation and comments, and the limitations on the availability of outside plant personnel resources during the busy summer months, an inspection of every location in the service area was not feasible.

Pine Tree respectfully requests that the Commission find that the evidence submitted herein is sufficient to remove the Company from application of the 100 Percent Overlap Rule. High-cost universal service support is critical to Pine Tree's mission of providing quality and affordable voice and broadband service in its rural Maine study area. Application of the 100 Percent Overlap Rule would eliminate \$463,482 in USF funding that is being used today to get high speed broadband to rural customers who do not have competitive alternatives.

III. CONCLUSION

As the evidence provided above proves, the Bureau's preliminary determination about Pine Tree is incorrect. Pine Tree's service area is not 100 percent overlapped by unsubsidized competitors. Accordingly, Pine Tree respectfully requests that it be removed from the Bureaus's list and not subject to application of the 100% Overlap Rule.

⁶ Although Comcast was identified as a competitor in several census blocks, the areas Pine Tree inspected were outside of those census blocks and, thus, Pine Tree references Time Warner only in its discussion.

Respectfully submitted,

A handwritten signature in black ink, reading "Trina M. Bragdon". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

AFFIDAVIT OF SCOTT BARTLETT

..

I, Scott Bartlett, hereby state:

1. I am the Director of Outside Plant for Pine Tree Telephone LLC.
2. I have been employed by PTT or its affiliates for over 21 years.
3. I am personally familiar with the location and types of telephone and cable company plant located in PTT's operating territory, including plant owned by Time Warner Cable ("TWC"), and Comcast.
4. For the past month, I, along with James Taplin, and other outside employees, have carefully surveyed the location of plant owned TWC and Comcast. We accomplished this by driving the roads and streets that make up PTT's territory and identifying specific street addresses where TWC and Comcast do not have any plant serving those addresses.
5. Attached to this Affidavit is the list of the specific street addresses of locations within PTT's territory where TWC and Comcast do not have any plant.
6. Given the lack of TWC or Comcast plant serving those particular locations, I believe that neither company can offer voice or broadband services at those locations at this time.

Scott Bartlett

Scott Bartlett personally appeared before me and affirmed that the above-stated facts were true and correct based upon his own personal knowledge.
